Good will PU College
2020-2022
Graduated with 75%

PROJECT

Online Quiz Platform

The Online Quiz Platform is a web-based application designed to create, manage, and attempt quizzes in an interactive and user-friendly environment. Today online quiz portal has become a fast growing examination method because of its speed accuracy. the system provides features such as user authentication, quiz selection, timed assessments, automatic scoring, and result generation. It supports multiple question types like multiple-choice questions (MCQs), and ensures real-time feedback to users after quiz submission. The platform is developed to enhance learning and evaluation by providing a simple and efficient way to conduct online tests.

Front-End Development

- HTML, CSS, Responsive Web Design
- Semantic HTML
- Basic javascript , react.js
- Cross Browser Compatibility

Backend Development

- MySQL
- knowledge of database connectivity using SQL
